# Problem of the Week
Problem D
Percents of Interest

The following information is known about the results of a recent math test:

- there were three questions on the test;

- each question was worth 1 mark;

- each question was marked either right or wrong (no part marks);

- 50% of the students got all 3 questions correct;

- 5% of the students got no questions correct; and

- the class average mark was 2.3 out of 3.

Determine the percentage of students who got exactly 1 question correct and the percentage of students who got exactly 2 questions correct.
